

## **EPC SUPERINTENDENT**

- Site-based role, located south of Newman, Western Australia
- Maximum term contract
- 2:1 roster
- Industry benchmark project in Australia

Kalium Lakes Potash, an emerging Sulphate of Potash producer, is seeking an EPC Superintendent to administer the EPC Contract and ensure compliance with all Contract terms and conditions by Contracted parties.

The EPC Superintendent must provide independent commercial guidance and act in accordance with the contractual obligations as defined in the EPC Contract - AS4902-2000.

Specific accountabilities of the Superintendent include, but are not limited to:

- An overriding commitment to health and safety in all activities, encouraging all personnel to comply with the HSE policies and procedures;
- Issuing directions to the Contractors on behalf of the Principal;
- Approving programs;
- Approving subcontractors;
- Controlling interfaces between Principal employees and Contractor personnel;
- Resolving contract document ambiguities;
- Approving results from examining and testing materials;
- Assessing postponement and suspension of work;
- Assessing contract variations;
- Daily assessment of works under contract and project performance
- Coordination of Superintendent Representative, as may be appointed from time to time

To fulfill the responsibilities of this position, the successful candidate will need to demonstrate the following:

- Prior experience as a Superintendent under an AS4902-2000 contract is preferred
- 10 years relevant working experience in Mining/Processing/Construction;
- Strong commercial acumen and understanding of EPC construction contracts, specifically in relation to the Australian standard AS4902-2000;
- Advanced Microsoft Excel/Word capability;
- Expediting and logistics experience both within Australia and overseas;
- Solid analytical, commercial and negotiation capability;
- Comfortable with writing reports;
- Be approachable and work collaboratively ;
- Act with integrity and honesty;
- Strong problem-solving capability;
- Hands-on approach;
- Ability to multitask and work under pressure;
- High level of attention to detail.
